DETAILED ACTION

Election/Restrictions

1. The amendment filed on 2/1/2008 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the original claims are directed towards a preparation (composition), and a method of producing a preparation. The newly amended claims are directed towards a method of using a composition, where the method of use could be materially different, in that the composition as claimed could be used on wall surfaces, as has been evidenced by the references presented in the previous action.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

2. Newly submitted claims 37-64 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly submitted claims are directed towards a method of using a composition, where the method of use could be materially different, in that the composition as claimed could be used on wall surfaces, as has been evidenced by the references presented in the previous action.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 37-64 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
